Our Philosophy

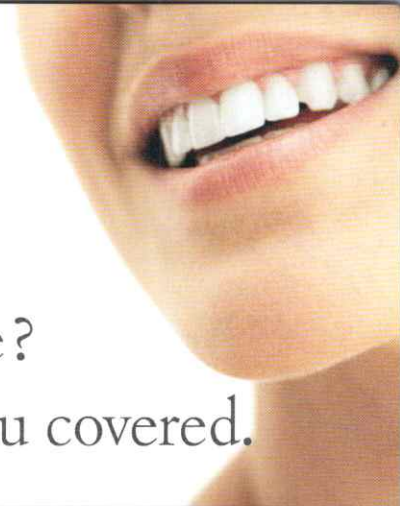

At Elite Smiles, our main priority is to strengthen the relationships between our patients and our practice. Over the last 30 years, insurance companies have put a strain on this relationship. As premiums have increased, dental benefits have only decreased, leaving the patient with higher out-of-pocket costs.

By offering a discount plan to those without dental insurance, patients can focus on improving their oral health, without feeling burdened by financial stress. We believe great smiles can be achieved at a reasonable cost. Our hope is that achieving this balance will strengthen the relationship between our valued patients and our practice.
